

Valentine Special Delivery

Vickie's husband took her dog, emptied their bank account and ran off with his secretary. The only thing he left her with is his car payment and a bad taste in her mouth. Vickie has a new life that revolves around her derelict car, a struggling new business and a sexy FedEx delivery guy. After a well-placed kiss, Jake gets a taste of Vickie and now he can't get enough. After delivering packages all day, he's more than willing to let her unwrap his package.
